Technical skills

- Web: HTML, CSS, Javascript
- Bootstrap
- Android
- PhP
- Java
- React.Js
- Sql Database

Soft Skill

- Problem solving
- creative thinking
- Positive Attitude

Education Background

- Diploma in Computer Engineering in Om institute of engineering junagadh,Gujarat

About Me

As a recent graduate in software development,I have gained a strong foundation in programming languages such as Java, C++, and PhP, as well as familiarity with web development frameworks like React.js.

Achievements

During my academic studies at OM Engineering College in Junagadh, I successfully completed four projects showcasing my skills in web development and application deployment.

Pet care system- Little Paws
- Developed an online platform for pet care services and lots, providing pet owners with easy access to pet care services and pet-related products.
- Worked collaboratively with a team of developers to design and implement the platform's features using HTML, CSS, JavaScript, and PHP.

Gym Management System - LifeLine Fitness.
- Developed webapp for the fitness center.
- Created a user-friendly interface for gym staff to easily access and update member data, such as personal information, payment status, and workout history.
- Utilized Html, CSS , PHP with mysql database.

ED Tech Company - Technologine
- Developed a website for the ed tech company that provided information about the company and its courses
- Collaborated with a team of designers and developers to create an intuitive user interface and optimized user experience
- Implemented responsive design to ensure the website was accessible on all devices
- Utilized React.js, CSS, node js to create dynamic and interactive features

R.O. Service Andorid App- Aqua Service
- Successfully deployed the R.O. Service Application, ensuring smooth implementation.
- Drove user adoption and satisfaction, resulting in improved customer experience.
- Enhanced the application with automated SMS notifications for service updates.
- Streamlined service processes through optimized workflows and a bill PDF generation feature.
- Developed performance analytics and reporting capabilities for data-driven decision-making.
